

## Maunga Iti

True to its name your luxury tent occupies a prime position on top of a little hill, cradled by native bush, inviting your eyes to wonder over a tree-clad valley to the ocean and the islands beyond. The generously proportioned deck is a great space to practice yoga, meditate or simply lounge and soak in the views, the aromas of the bush and the bird chorus. An outdoor bath is countersunk into one side of the deck to capture the views and privacy. The stylish interior includes a queen-sized bed with fine Egyptian cotton sheets, warm natural bedding and set of towels, complimented by a designer seat and a pullout futon couch. A wood fired potbelly stove provides warmth and comfort even on a cold and rainy night. During the warmer months you can choose to sleep with the front of the tent wide open, marveling at the blinking of a distant lighthouse and the stars of the Milky Way galaxy at night. Insect screens on all windows and the entire front of the tent ensure a peaceful night's sleep. The rear access of the tent takes you straight to the fully set up camp kitchen including a gas fridge/freezer to chill your perishables and the champagne. Conveniently adjacent is your ensuite bathroom with hot shower, hand basin and a flush toilet. Maunga Iti has a private, all-weather, 2wd access to the site.

Luxury designed with care and empathy for the natural environment.
